GOOD NEWS!
New Store, New Goods, Lower Prices,
At Your Old Time Friend's,

ABE GOLD
NATIVE PRODUCE
In consequence of the increase of my business I have found it necessary to enlarge my store, and have rented and enlarged my entire stock of goods. I will carry one of the most complete stocks of native produce, and I will not be undersold by anybody. I shall also continue to buy and sell at the lowest prices. And farmers and ranchers will find it to their advantage to deal with me. Free Corral in connection with my new store. Call and be convinced.

Santa Fe, N. M., January 1, 1889.

Telegraphic Tidings

MANDERSON IS HOT!

Late Reports Give New Mexico a Slim Chance to Ride in the Onslaught.

WASHINGTON, Jan. 24.—The friends of the Springer bill for the admission of the territories have assumed too much in their declaration that the Republicans of the senate were certain to pass the bill, and that a majority even of the Republicans on the committee on territories would agree to favorably report the bill. It has been assumed that the following Republicans of the committee would vote to favorably report the bill: Stewart, Manderson and Davis. That would be a majority of the Republicans members, but it appears that this estimate is an error. Mr. Manderson has issued a statement to the effect that he is not in favor of the bill, that on the contrary he is earnestly opposed to it. He is opposed to the proposition to admit New Mexico on any terms, and is not inclined to take any legislative steps which will tend to facilitate the admission of that territory. Mr. Cullom, of the committee, says that those who think the bill will pass will even pass at all, are mistaken, and he doubts its passage.

Utah and Arizona.
WASHINGTON, Jan. 24.—Judge Wilson, of this city, concluded his argument yesterday in behalf of the admission of Utah territory as a state of the Union, before the house committee on territories. He agreed that when the territory had a population sufficient to entitle it to be a representative in congress, with other conditions incident to a fixed population, there was a moral obligation resting on the government to admit that territory as a state. He declared that not 2 per cent. of the present adult Mormon male population of the territory ever practiced polygamy. He argued that the tenets of the Mormon church required people to obey laws of state, that was one of the fundamental tenets of the church. He maintained that congress had full power to make such a compact with proposed states as would secure a suppression of polygamy. If Utah became a state under such compact, congress would have power to enforce the terms, or relocate the state back into a territorial condition, and resume control. At the conclusion of the address, Delegate Smith, of Arizona, addressed the committee in favor of admission.

A Threat of a Strike.
NEW YORK, Jan. 24.—There will be trouble in George A. Clark & Co.'s thread works at Kearney, N. J., unless the fruit puts screws on Supt. Wormley. This is the man who caused the strike of girls a year ago on account of his introduction of English factory methods. The mills are the largest of the kind in the country, and a strike of the spinners will stop the entire works, throwing out of work about 1,500 hands.

Arizona Legislators.
PRESCOTT, Jan. 24.—The eleven Republican with Deputy, Independent, have met three times to organize and the Democrats will not answer to their names. They seem bound to seat Purdy and Stevens before organizing, the attitude of the Democrats is anything but creditable.

Short Line South.
JACKSONVILLE, Fla., Jan. 24.—The Georgia Southern & Florida railroad has been completed from Macon, Ga., to Palatka, Fla., a distance of 285 miles. The line is fifty miles shorter than any other road running into Florida. It runs through a great and undeveloped timber country.

MOUTH OF THE BRAZOS.

The Deep Water Port Under Good Headway—Big Contracts.

CHICAGO, Jan. 24.—Col. Abner Taylor, of Chicago, is in the city and was interviewed concerning the proposed plan for procuring deep water at the mouth of the Brazos river. "I have no share in it," said Col. Taylor. "Mr. Wilke, the sub-contractor, has taken the Brazos contract, I am informed at \$1,250,000. He has already sublet the mattress work. Deep water at that point is an assured fact, and three railroads will soon converge there to aid in building up a city. I have often wondered that some enterprising set of people did not take the matter in hand and build a harbor long ago, without waiting for government aid. "The Brazos scheme is as practical as the jetty at the mouth of the Mississippi,

GOV. ALGER TALKS.

Admits the Territories and Reduce the Tariff—An Extra Session.

CHICAGO, Jan. 24.—Gen. Russell A. Alger, of Michigan, was in the city yesterday and spent the day at the Grand Pacific. His visit was entirely for private business, but he received a number of political callers during the day.

When questioned regarding the make-up of Gen. Harrison's cabinet, Gen. Alger said that he didn't know anything about it further than information obtained from the press. He was asked if he thought the interests of the country demanded an extra session of congress, and replied: "I depend entirely upon what the present congress does. If this congress does not pass a tariff measure I think a special session of the new congress should be called. Something should be done to reduce the surplus and regulate the revenue."

Deep Water.
Gov. Ross, of New Mexico, has sent a message to the legislature of that territory, recommending that it memorialize congress upon the question of the construction of a deep harbor on the Texas coast. Doubtless the recommendation will be favorably acted upon. New Mexico is deeply interested in the construction of such a harbor, the matter of itself is beneficial to the trade of the territory.

Artesian Well.
TRINIDAD, Colo., Jan. 24.—Twelve miles east of Trinidad on the prairie at an altitude of 5,600 feet a drill was put down 191 feet. A flow of water was struck which rose within forty feet of the surface inside of thirty minutes. A crevice or pocket so often encountered in this section has been passed through by the drill and this is supposed to allow the water to escape and prevent the overflow of the well. The experiment will be repeated in another place.

Quarrelling Editors.
GARDEN CITY, Kan., Jan. 24.—A newspaper man, the editor of the Sentinel, has been indicted for criminal libel and perjury. The libel consists in charges made against the editor of the Herald in a personal controversy between the papers. The perjury is alleged to be in falsely swearing to a bill collected from the county for public printing. A county commissioner was also indicted for allowing the bill. Both parties gave bond and were discharged.

Plenty of the War Dogs.
PANAMA, Jan. 24.—The government has taken the necessary precautions to prevent anything taking place in connection with canal affairs. Her British majesty's ship Lily has arrived at Colon and will shortly be joined by the Forward, now at Cartagena. The leucis, which arrived some time ago, was joined in the bay of Panama by the Swiftness and Caroline.

Uttered a Shriek and Fell Dead.
NEW HAVEN, Conn., Jan. 20.—Mrs. Julia B. Graves, of Middletown, while attending services at the Second Universalist church in this city, uttered a shriek and fell dead in the arms of her nephew, Leo O. Gay. There was much excitement among the congregation, and a panic was narrowly averted. The pastor at once closed the service.

Mines Burning.
PITTSBURG, Jan. 24.—A big fire is raging at the Jackson mines near Jackson in the Connellville coke region. The mines are owned by James Lochrane & Sons, and are among the oldest in the coke region. It is feared the mines will be totally destroyed.

A Divorced Chinaman.
DENVER, Jan. 24.—The first Chinese divorce ever granted in the state of Colorado was issued by Judge Miller in the county court. The interested parties were Chin Poo and Wong Tai Poo, who were legally dissolved from the matrimonial state.

A Druggist Without a License.
PITTSBURG, Jan. 24.—Joseph Fleming, a wealthy druggist, has been sentenced to two months imprisonment in the county jail and fined \$500 for selling liquor without a license.

The Cotton Crops.
CHARLESTON, S. C., Jan. 24.—The News and Courier says the cotton crops this year will be the largest ever made and will approximate seven and a half million bales.

Gene to Samoa.
LONDON, Jan. 24.—A cruiser belonging to the British Australian squadron has been dispatched to Samoa, where she will arrive at the end of the current week.

Leading physicians recommend Ayer's Sarsaparilla. Old and young take it with perfect safety. It cleanses the blood, strengthens the nerves, and vitalizes the system. Popular experience has long placed this medicine at the head of tonic preparations.

LABOR-CAPITAL-HEALTH

Ugly words sometimes, full of discord—that is, the first two—when not tuned to a proper key; but a regular "symphony" whenever used to prove
That labor invariably produces capital;
That capital can find a capital field of labor; in
That "Good digestion waits on appetite";

The Mesilla Valley!

He must be blind indeed who can not see that it is a most favored section. Seekers after health, profit and pleasure, after a thorough search from the lakes to the Pacific coast, are finding their El Dorado in New Mexico; and to these new comers, as well as to everybody else, the

RIO GRANDE LAND COMPY

extends a cordial greeting, and invites a careful and thorough inspection of its FINE COLONY LANDS. Some 2,000 acres of which are subdivided and platted into ten and twenty acre blocks (from which incomes can be produced equally as great, if not greater, than the average farms of eighty and 160 acres in the western and northwestern states), and all within a radius of one and one-half miles of the railroad depots at

LAS CRUCES AND MESILLA PARK

Some of these blocks are cultivated, or have bearing orchards and vineyards; others not. Some have tasteful and modern cottages upon them; in others Nature has undisputed dominion. It's merely a question of choice—and money—although the latter does not cut such a figure as one might suppose in these days of booms; and our "long term payment and low interest" plan often adds a little spice to a transaction to one who has an eye to the future. Warranty deeds given. Write or call for plans and circulars. Command us for carriages or other courtesies within our power to give.
